

## Flowmeter Calibration, Servicing & Repair Services

Dear Sir / Madam,

We are pleased to introduce ourselves as one of the leading manufacturers and marketers of several types of flowmeters, Rotameters, Water meters, Gas Meters, Level Meters, Pressure and Temperature Sensors, etc.

We also have 'State of the Art' Flowmeters Calibration Setup, with advanced technology and completely automated. We have flow calibration facility with oil, air and water.

Oil calibration is for small diameter (2mm to 25mm) flowmeters. Flowmeters are calibrated against the Volume of Oil in the graduated tank.

Air calibration is for Gas / Air Flowmeters with 2mm to 100mm diameters. A Blower blows the Air and the flowmeters are calibrated against a Master Thermal Mass Flowmeter.

Water Calibration is against Water tank of 10000 liters capacity, on 30 tons capacity load cells. Flowmeters upto 200mm diameter can be calibrated on this test rig. And we also have Coriolis Mass Flowmeter, 50mm size that is mainly used to calibrate Rotameters.

Our Calibration Setup is certified by Legal Metrology Department and soon we shall be having NABL Accreditation. We shall be soon adding Pressure Transmitter, Temperature Transmitter and Level Transmitter Calibrations also. Apart from supply of flowmeters, we are also offering Flowmeters Calibration Service for the past 10 years.

**We request you to kindly utilize our Flowmeter Calibration Services, for any type of flowmeters, with water, oil or gas, to fulfill your ISO standards. Calibration Service Charges vary from Rs. 2000 to Rs. 30000, depending on the size and complexity of the Test Flowmeter.**

Looking forward for your patronage.

Regards

Y. Narasimha Reddy
